To End Foot Misery

It is strange how long people will try to endure torture, burning, itching or perspiring feet, before they make life miserable and interfere with all work and pleasure. Any good druggist or foot doctor will tell you that these troubles can be easily and permanently relieved by a simple, scientific treatment known as the Calo-cide foot-bath. Its astringent and soothing action penetrates the pores and corrects the cause. A package of the genuine Calo-cide costs but a quarter at any drug store, but will save many dollars in foot comfort. Early use of Calo-cide completely ridges the feet, and is really foolhardy to suffer when so easily ended.—Adv.

Soft, Curly, Wavy Hair Now Easy to Have

(Woman's Realm.) Beautiful, fluffy, natural-looking curls or waves, without the use of the ruinous curling iron, are now easily had for every woman. Not only possible, but very easily acquired over night, and with benefit only necessary to apply a little liquid silencer to the hair, using the "Easy to Have" brush for the purpose, drawing this down the full length of the tresses from root to tip. In the morning the hair will have a most beautiful curliness and lustre, without the slightest trouble or cost. The liquid silencer will be quite controllable, no matter how the hair is done up. As liquid silencer is procurable at any drug store and as a few ounces of it will last for months, no woman need put up with that flat, lank, dank appearance of the hair which gives such an unwholesome look of dullness to most faces.

GROW VICTORY BOND IN VICTORY GARDEN

By CHARLES LATHROP PAGE, President National War Garden Commission.

"Grow a Victory bond in your Victory Garden" is the "daily hint" being sent to the gardeners of the country by the National War Garden Commission. If ten million gardeners adopt this hint it will mean, during the bond at \$30, that \$300,000,000 will be taken on the next issue simply with the exercising of a little thrift.

Well-directed thrift, coupled with the extra hour of daylight that comes back to us on the last Sunday in March is going to open up business as nothing else can. When the gardener who is now ready for the biggest home food production campaign the country ever saw begins reaping the harvest, he is going to have more money than ever to spend. He is spending a lot of that money right now for seeds, and therefore that money is getting into circulation. That means business. There are thousands upon thousands of gardeners who will buy a bond with garden money this year, for they will produce the price of a bond and more in their gardens. If everybody in the country will get a little of the gardener's pep in his blood, and garden work is the greatest tonic in the world, we will see a business boom that will make gloom take to the woods. The gardener is a buyer and the buyer is a business boomer.

Sir H. Rider Haggard's Great New Serial Which Started with Last Sunday's Times

Here Are the Opening Paragraphs

this is the story of Me

—Ann the scribe —son of Meri —and of certain of the days that I have spent upon this earth.

These things I have written down now that I am very old in the reign of Ramses, the third of that name, when Egypt is once more strong and as she was in ancient times. I have written them before death takes me, that they may be buried with me in death, for as my spirit shall arise in the hour of resurrection, so also these things shall be written after me upon the earth of what I knew upon the earth. Let it be as those in heaven shall decree. At least I write and what I write is true.
